With the supervision of your D.C., practice performing electrotherapy, hydrotherapy, or one of the many passive or active physiotherapy modalities learned in this course. Remember to document each therapy by writing up a patient S.O.A.P. note including time, location, machine settings, type of therapy or exercise, hold times, number of reps, number of sets, weight, or band strength used. In addition, remember to include the "why," "goal," "which muscle or body part," and the response to any therapy or exercise post-treatment. Make sure to sign the notation.
